THE MINISTER OF STATE OF THE MINISTRY OF SCIENCE AND TECHNOLOGY (SHRI KAPIL SIBAL): (a) to (d) The Inter-Governmental bilateral agreements of collaboration and exchanges in the field of Science and Technology have been signed with 67 countries and with European Union, so far. The list of countries with which these agreements have been signed is given in the Statement (*see* below)

Pursuant to the Agreements, Joint Committees are set up comprising of representatives of both sides. These Joint Committees decide on the activities and areas of collaboration to be undertaken under the Agreement. The Agreements signed on scientific collaborations provide by and large for following modes of cooperation:

(1) Exchange of scientists, research workers and technical experts.

(2) Organization of colloquiums, seminars, workshops and scientific and technological exhibitions on problems of common interests.

(3) Conducting of joint research and development projects and application of the results of such research in industry, agriculture and other fields.

(4) Exchange of scientific and technical information between the scientific centres and institutions.

(5) Joint use of scientific facilities and scientific equipments.

(6) Facilitating industrial R&D and catalyzing joint ventures.

(7) Training of scientists/technical personnel.

(8) Creation of joint science and research facilities, centres, laboratories and groups.

(9) Catalyzing science based Public-Private Partnership.

Normally the joint activities include visits for joint workshops/seminars, joint research and development projects, joint use of facilities, training and exploratory purposes. Medium or long term faculty positions or

assignments are not directly provided to visiting scientists under these Agreements.
